

Summary

This newsletter discusses enhanced Web pages and new reporting functionality that are now available on the [NSLDS Professional Access Web site](#) and the [NSLDS Student Access Web site](#). Enhancements that will be covered in this newsletter include:

- New Enrollment Reporting File Format Choices
- Enrollment Administrator Options
- New Move to School Location Functionality
- Enrollment Reporting of Pell Grant and Perkins Loan Recipients
- New Enrollment Reporting Data
- Reporting Student Address
- Enhancements to the NSLDS Student Access Web Site
- Additional Information

[Dear Colleague Letter GEN-12-06](#), posted to the Information for Financial Aid Professionals (IFAP) Web Site on March 30, 2012 provided information regarding enhancements to the National Student Loan Data System (NSLDS) Enrollment Reporting Process and important reminders regarding a school's NSLDS Enrollment Reporting responsibilities. On April 6, 2012, we posted to IFAP [an Electronic Announcement titled Upcoming Enhancements to NSLDS to Accommodate Enrollment Reporting Process Changes](#), to provide schools with details regarding the changes and links to the new enrollment reporting file formats.

This newsletter does not cover the step by step functionality of enrollment reporting. That will be available in a new version of the NSLDS Enrollment Reporting Guide which will be posted to IFAP later this summer.

For more detail on the use of any of the Web pages on the NSLDS Professional Access Web site, click on the question mark icon  on the page to bring up the Help text for the corresponding page.

New Enrollment Reporting File Format Choices

An NSLDS Enrollment Reporting batch file can now be exchanged between the school and NSLDS using an enhanced fixed width flat file, a Comma Separated Values (CSV) file, or an XML reporting schema. To assist schools in preparing for the new file formats, the file layouts are posted in the [NSLDS Record Layouts section on the IFAP Web site](#).

Schools will be allowed a transition period, through March 31, 2013, to change to one of the new file formats. While schools may continue to use the current fixed length format during the transition period, they must begin using the one of the new formats no later than March 31, 2013.

The current NSLDS Enrollment Reporting Schedule has been replaced by the Enrollment Reporting Profile page. On this new page, schools will

indicate their preferences for their Enrollment Reporting roster files.

The screenshot shows the NSLDS web interface. At the top, there is a navigation menu with 'Menu', 'Aid', 'Enroll', 'Org', 'Report', and 'Tran'. Below this, a breadcrumb trail includes 'Enrollment Reporting Schedule'. The main content area has a sub-menu with 'Menu', 'Aid', 'Enroll', 'Org', 'Report', and 'Tran'. The 'Enrollment Reporting Profile' link is highlighted in red. Below this, there is a search bar with 'Code:' and 'Name:' fields, and a 'Retrieve' button. The user information shows 'FSA ID: NSL.SCTST2.FSA logged on as: ONLINE SCHOOL USER from FSA NSLDS COLLEGE / TG54560 / SCTST2'. The main profile section shows 'Name: FSA NSLDS COLLEGE' and 'Code: 00301000 Type: School'. Below this is the 'Enrollment Reporting Profile' section with buttons for 'View Certification by Quarter', 'Request Ad Hoc Roster', and 'Set Up Perkins Notification'. The 'Portfolio Type' section shows 'Portfolio Type: School' and a 'Switch Portfolio' button. The 'Preferences' section is highlighted in red and contains the following fields: 'Destination SAIG Mailbox: TG50167', 'Servicer Name: None', 'Administrator Name: None', 'Roster Format: Single File', 'File Type: Original Fixed Length', and 'Sort Order: Student SSN'. An 'Update' button is located at the bottom of this section.

Clicking on Update opens the Enrollment Reporting Preferences Update page where choices can be made on roster format, file type, and sort order.

The screenshot shows the 'Enrollment Reporting Preferences Update' page. At the top, there is a header with 'Name: FSA NSLDS COLLEGE' and 'Code: 00301000 Type: School'. Below this is the 'Enrollment Reporting Preferences Update' section. It contains the following fields: 'Destination SAIG Mailbox: TG50167', 'Roster Format: Single File' (with a dropdown menu showing 'Single File', 'Single File', and 'Multiple Files'), 'File Type: Enhanced Fixed Length' (with a dropdown menu showing 'Original Fixed Length', 'Enhanced Fixed Length', 'Comma Separated Values', and 'eXtensible Markup Language'), and 'Sort Order: Student Last Name' (with a dropdown menu showing 'Student Last Name', 'Student SSN', and 'Student Last Name'). There are 'Submit' and 'Reset' buttons at the bottom. The 'Update' button from the previous page is highlighted in red.

Once a school makes its file choices on the Enrollment Reporting Profile, NSLDS will initiate the school's next Enrollment Reporting roster in accordance with those choices. The school will then respond using the same file specifications and will receive its enrollment response file from NSLDS in the same format.

Enrollment Administrator Options

NSLDS continues to track student enrollment at the eight-digit school code (OPEID) level. However, many schools have switched to a single OPEID for originating and managing federal student aid funds. The Common Origination and Disbursement (COD) System is now capturing the eight-digit school code (“Enrollment School Code”) of the actual physical location (identified by the last two digits of the OPEID) where the student is physically attending.

To assist schools that report for their own campus locations (i.e., do not use a servicer) NSLDS has created a new option to allow a single location of a 6-digit school OPEID to act as the “Enrollment Administrator” for more than one location (2-digit OPEID location code) of the school. Schools with multiple locations can designate one or more Enrollment Administrator locations to report enrollment for students at other locations that share the same six-digit OPEID school code.

Using the Enrollment Reporting Profile Page, the school can establish an Enrollment Administrator for multiple locations of the school. In the example below, each location of the school is set up to administer its own enrollment reporting rosters:

Once the Enrollment Administrator location is established for a location, NSLDS will provide the Enrollment Administrator at the assigned location with Enrollment Rosters that include all the students who are enrolled at all locations that the Enrollment Administrator is responsible for reporting on. An Enrollment Roster can be received with students from all of the

assigned locations in one file or in multiple files for each assigned location. Make that choice in the Preference Box as demonstrated below:

Once Enrollment Administrator is assigned, only an authorized online user from that location will be able to make a selection for Roster Format, File Type, and Sort Order.

New Move to School Location Functionality

We are also providing a method for school locations that share an Administrator to inform NSLDS of the student's current enrollment location code (the 8-digit OPEID of the school's location where the student is physically attending). NSLDS is providing a location field both online and in the roster file for schools to ensure that the appropriate enrollment location is being used for enrollment reporting. If the student moves from one location of the school to another location of the same school that shares the same Enrollment Administrator, using this field allows NSLDS to do the work of withdrawing the student from the previous location and adding the student to the new enrollment location.

Note that this new option should only be used if the student is no longer to be reported as enrolled at the prior location, and is to be reported as enrolled at a new location (8-digit OPEID) of the school under the same Enrollment Administrator. This could be due to the student actually changing locations or because the student was previously reported at a location (for example 00) different from the attending location just for enrollment reporting purposes. NSLDS will create an enrollment record with status of W – Withdrawn for the student at the prior location, and this will be reported to loan holders with interest in the student, along with the new status and location.

The **new** field is available in all the new file layouts (identified as "Move To School Branch Code) and also on the NSLDS Enrollment Maintenance Web page (identified as "Loc").

Note the Enrollment Summary display prior to the location change:

With new options for providing the correct location code in COD disbursement records, by establishing an Enrollment Administrator, and using new fields in the file layout and online, Federal Student Aid expects to capture the location code where the student is physically attending, and

use this location for tracking enrollment status.

Enrollment Reporting of Pell Grant and Perkins Loan Recipients

Beginning June of 2012, NSLDS Enrollment Reporting files will include **Pell Grant** and **Perkins Loan** recipients who have not received a Direct Loan or FFEL program loan. The first new students to be included will be those who are Pell Grant recipients for the 2012-2013 Award Year. This addition of Pell Grant and Perkins Loan recipients to a school's Enrollment Reporting file should not result in a significant increase of students for whom enrollment must be reported since many Pell Grant and Perkins Loan recipients are also Direct Loan recipients and each student will be included on the school's Enrollment Reporting file only once.

The inclusion of Pell Grant and Perkins Loan recipients does not impact the file layout nor the fields or field values that are used for NSLDS enrollment reporting. Students will be listed on the roster without reference to the aid type received.

New Enrollment Reporting Data

The following new data items have been included in the new Enrollment Reporting file layout and are also able to be added or updated online from the Enrollment Maintenance Web page:

Credential Level – To report the Credential Level of the academic program that the student completed when reporting an Enrollment Status of "Graduated – G". This field provides a drop down box with the possible values. A description of each of the Credential Level values is available in the Help pages online and in the file layouts posted to the IFAP Web site.

Enhancements to the NSLDS Student Access Web Site

To reach the new pages on the [NSLDS Student Access Web site](#), the student selects Financial Aid Review and logs on with his/her SSN, first two letters of the last name, date of birth, and PIN. The menu bar then displays the links to the new Enroll and Address pages.

Enrollment

As described in [Dear Colleague Letter GEN-12-06](#), students wanting to have their loans maintained in an in-school status or an in-school deferment status are often negatively impacted because of the timing of their school's NSLDS Enrollment Reporting. To address this issue, the [NSLDS Student Access Web site](#) has been enhanced to allow a student to report enrollment at a new school or reenrollment at one of the student's former schools. When the student provides this information, NSLDS will add the student to the school's enrollment roster for confirmation of the current enrollment.

To review enrollment information, the student selects the Enroll menu link:

NSLDS receives enrollment information from schools that is used in determining when a borrower's loans will enter repayment and whether a borrower is eligible for an in-school deferment. This page allows you to see which schools we are contacting to confirm your current enrollment. If the school(s) you are attending or plan to attend is not listed under "Current Enrollment", you may select it from the "Additional Enrollment" list below. Also provide an enrollment confirmation date so we do not contact your school before you expect to enroll. When you are finished, use the Submit button to save changes.

Additional Information

This newsletter provides an overview of many of the enhancements to the NSLDS Enrollment Reporting Process implemented on June 24, 2012. Additional enhancements that will be made available in the near future include a new Excel online upload process for reporting enrollment and new enrollment reporting tools for schools to monitor their enrollment certifications. Look for more details in the Enrollment Reporting User Guide to be published late this summer and posted to the IFAP Web site.
