RE Net Price Calculator template update and Updated FAQ's

---

Any institution participating in Title IV Federal Student Aid Programs must post a net price calculator in its website that uses institutional data to provide estimated net price information to current and prospective students and their families based on a student's individual circumstances. This calculator must allow students to calculate an estimated net price of attendance at an institution (defined as cost of attendance minus grant and scholarship aid) based on what similar students paid in a previous year. The net price calculator is required for all Title IV institutions that enroll full-time, first-time degree- or certificate-seeking undergraduate students.

Here is the link to read the latest template update on the Net Price Calculator and the updates to the Frequently Asked Questions (FAQ's).
