### **RGM Memo**

Date September 24, 2013  
To School Owners and Financial Aid Personnel  
RE Day 2 Program Review Update

---

In the DAY ONE Memo we sent earlier today, we mentioned the Program Review Team made a good recommendation.

The recommendation made was to make the Entrance Counseling part of the requirement prior to generating the first disbursement of Direct Loan funds as it is required in the regulations.

We are currently working on updating the system and we will send you more detailed information on the change in another memo.

At the end of Day Two, everything seems to be going very well.

We did receive an additional recommendation made for us to encourage schools to better utilize the Registrar Module.

Thank you for your continued support.

Rafael
