RE: Lifetime Eligibility Used Prior to 1994

---

We have come across an instance where a student received 600% of the Lifetime Eligibility Used for Pell, which was not indicated on the ISIR as having reached the maximum L.E.U. amount.

When the Pell Grant was originated we received an error on the origination. Upon further research we found that the origination error was due to the student having received the maximum lifetime eligibility for Pell prior to 1994. COD has student records from 1994 to present day. On this particular student the student received all Pell Funds prior to 1983 which were located in the NSLDS database.

If you have any questions, please contact us.

Thank you,  
Rafael
